Presenter Guidelines – Poster Presentations

Posters are on display for the whole conference week from 16 – 20 June 2024. A dedicated poster session takes place on Wednesday, 19 June 2024, 14.30-16.00 (online program). There will be no other sessions running during that time to make sure the poster session gets plenty of attention.

**Poster format**
The poster format is A0 portrait format (841 mm wide x 1189 mm high). Larger posters or posters in landscape format cannot be displayed. Please bring your poster printed, it is not possible to print it in Davos!

**Hanging up your poster**
You can attach your poster on the poster board as soon as you have registered at the reception desk. We will give you Power Strips to mount your poster, please do NOT use nails, pins or other materials.

**Poster numbers**
Each poster has a poster number, which consists of your abstract number and the session code, as for example abstract nr 137 from session AGECO_18.1 will be 137_AGEICO_18.1. There will be a list with the poster numbers displayed in the entrance to help you find your poster board.

**Taking down your poster**
Posters need to be taken down by the presenter at the end of the conference, latest by Thursday, 20 June 2024, 12:00. Please keep in mind that you might want to use your poster again and that taking it with you saves resources and helps us to avoid rubbish.

Please be sure to be available near your poster during the poster session. At least one author for each poster must be present at the poster during the poster session.
